Baileys chocolate cremeux, lemon coffee shortbread, coffee mascarpone whipped cream	

HELP US PROTECT OUR OCEANS AND REDUCE PLASTIC WASTE.

Straws are a big problem for the environment. It takes 200 years for a plastic straw to break down... into tiny toxic particles. Plastic straws can't be recycled and they often end up in the ocean, where they pollute water and harm sea life. Globally, hundreds of millions of straws are tossed every day, but we believe that we can all be part of the solution. **That is why we have transitioned to paper straws available upon request.**

A healthy ocean provides resilience to climate change. Help today by joining us in reducing straw use.

*Consuming raw or undercooked meats, poultry, shellfish or eggs may increase your risk of food borne illness.
