

Online Event Housing Tools for a Successful Event

At Hilton Hotels, we are committed to the success of your event and are delighted to offer our meeting planners a set of online tools that will make your event housing simple, seamless and stress-free.

Online Hotel Reservations

Live Event Tracking

Dedicated Web Booking Engine

The booking website is customized for your event so your guests can enjoy the convenience of booking in your contracted block via the web.

Mobile Booking

In addition, guests can make their hotel reservations via their iPhone, Blackberry or Android mobile device.

Connecting Registration with Reservations

Directly integrate your event registration process to the event's hotel booking website for a seamless guest experience, ensuring that attendees book their hotel rooms in a timely manner in your contracted block.

Social Network for Your Event

Let your guests connect before, during and after the event via an existing social network on Facebook, Twitter or LinkedIn, or let us create a dedicated social network for the event.

Event Dashboards and Reports

Now you can track your room block productivity, run helpful reports and manage your own rooming lists on the event dashboard.

Email Alerts

Automated email alerts make sure you have the right information at the right time, such as a weekly pick-up report, delegate list or an alert when a room block is 80% sold.

Email Campaigns

Send professionally designed email campaigns to your event guests to share important information before, during or after the event.
